

THINK BIG. GO BEYOND.

ADVANCED ENGINEERING AND ENVIRONMENTAL SERVICES, INC.

ADVANCED ENGINEERING AND ENVIRONMENTAL SERVICES, INC. (AE2S) is a specialized civil and environmental consulting engineering firm that provides professional services and our unique brand of extreme client service to municipal, rural, and industrial clients.

Our primary service is water - meaning drinking water, wastewater, and water resources consulting, which represents over 70 percent of our annual revenues. In addition to our core civil and environmental consulting services, we provide value added services, which are listed on the following page.

AE2S has a staff of over 275 civil, environmental, structural, and electrical engineers, instrumentation and controls technicians, civil technicians, surveyors, financial analysts, computer programmers, and administrative personnel.
